When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host. In The School of

Greatness, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives. A framework for personal development, The School of Greatness gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

Philip Hamburger's Law and Judicial Duty traces the early history of what is today called "judicial review." The book sheds new light on a host of misunderstood problems, including intent, the status of foreign and international law, the cases and controversies requirement, and the authority of judicial precedent. The book is essential reading for anyone concerned about the proper role of the judiciary.

mutilations, and government paranoia. Here, Timothy Good, one of the world's most respected authorities on the alien phenomenon, reveals for the first time sensational information provided to him by high-level military and scientific sources, who confirm that aliens have established subterranean and submarine bases on Earth and that extra-terrestrial contact has been made with a select group in the US military and scientific intelligence community. Among numerous revelations in this book are those involving the alien creature photographed by Filiberto Caponi in Italy. The author spent several years investigating this controversial case and commissioned an Expert Witness checked by the Law Society to analyse Caponi's astonishing photographs. Published for the first time, this unique story forms the central section of Uearthly Disclosure.

"Edwards has...illuminat[ed] the reformer's thought and personality in a way that could never be achieved by studying the man's words alone. Future historians will identify Edwards's book as one of several that marked a turning point in Luther research. No one interested in the Reformation can afford to ignore it."? American Historical Review"Edwards turns his attention to...understanding Luther's often vitriolic campaigns against opposing princes, Jews, the papacy, and others.... This work is one of solid scholarship and long gestation that seeks to understand without condemning.... More important, Edwards has raised a number of questions about the relationship across time of Luther's deeds, his words, and his world. Such is the mark of good history and of those who write it."?
