story demonstrates that conviction must come from within, and in telling that story he touches the place inside of us where growth begins.

Beyond Survival is a positive statement about love and commitment in the midst of war and division. It contrasts the cold reality of war, degradation, and torture with the warmth of human connections, inner serenity, and kinship with all of life. It poignantly illustrates that to be stripped of everything that is familiar and by which we identify ourselves leaves us with only what unites us - our human identity. It conveys truths about relationships at every level - with ourselves, with others, with our country, and with our God.

Without inflaming the wounds inflicted by America's involvement in Vietnam, *Beyond Survival* explores an issue at the heart of every free society: the willingness of ordinary individuals to maintain a passion for freedom so compelling that adversity strengthens rather than weakens personal resolve in the worst of circumstances. Through Gerald Coffee's story you will discover the universal principles of survival and triumph that empower anyone to overcome adversity.

The gripping story of Navy pilot, Captain Gerald Coffee, who after being shot down over North Vietnam in 1967 was taken prisoner and spend 7 year and one week at the "Hanoi Hilton" as a prisoner of war. How he and his fellow U.S. military pilots survived the daily torture and inhumane treatment is a testament to courage and belief in four vital things: yourself, your fellow prisoners, your country and your God. His story is truly compelling and inspirational.

Humor is integral to our peace of mind and our ability to go beyond survival." - Captain Gerald Coffee (Prisoner Of War for seven years during the Vietnam War. He claims he and the other American soldiers he was imprisoned with found solace in laughter, and it helped them make it through the harrowing experience).by Jal Bel

Becoming a military millionaire doesnt require a big salary, corporate bonus checks or tremendous prowess in the stock market. It does require taking advantage of the generous resources the military offers, using a systemic approach to investing in your future, and avoiding the pitfalls that people routinely fall in because they dont have a plan. I believe that wealth is obtainable to the military professional without sacrificing devotion to duty or family. Its simply a matter of loading up your financial rucksack with the goals, a plan, the right information and applying sound lifestyle habits that take advantage of whats available to you as a service member or family member and avoiding poor financial and lifestyle decisions.
