This is the fifth edition of a book pilots have been relying on to learn multi-engine flying for more than 20 years. Learn fundamentals of flying multi-engine airplanes and the aerodynamic laws that govern multi-engine flight, including energy management, under Bob Gardner's experienced and energetic tutoring. Included is information on both obtaining the multi-engine rating and checking out in a new twin. An integrated flight and ground syllabus details the program for the rating and provides a sample written test, typical of the one used for new-aircraft checkouts. Also contains a complete library of FAA source material on multi-engine flight subjects. The Complete Pilot Series is designed for use in flight schools, for home study, and as a base for student kits.

Now spiral bound! Features a step-by-step description of course contents. Includes: Lesson objectives * Flight and ground time allocations for all lessons, and * Coordination of other academic support materials with your flight training. ISBN 0-88487-240-8
