This updated third edition of *Legal Aspects of Corrections Management* provides a current, informative, and reader-friendly discussion of the contemporary legal issues impacting corrections management. Through the use of case law, this text provides readers with a practical understanding of how the First, Fourth, Fifth, Eighth and Fourteenth Amendments relate to the day-to-day issues of running a prison, jail, and other corrections programs, such as probation and parole. The authors' combined corrections experience included such positions as General Counsel, Regional Counsel, and Correctional Program Officer, as well as working within corrections facilities. Their work involved advising corrections staff and management on the legal issues associated with policies and procedures. The authors also have extensive teaching experience in corrections law, the criminal justice system, and criminology.

Legal Aspects of Corrections Administration, Fourth Edition helps students evaluate how laws and court decisions drive the creation of correctional policies in America's jails and prisons.

This book covers all facets of the legal environment of prison and jail administration in clear, non-technical fashion. Most of the book is devoted to a detailed presentation of what the law has said about specific areas of corrections operations and practices.

This book is an examination of police, courts, and corrections management as well as personnel and financial administration and criminal justice employees' rights.

Over the past four decades, the rate of incarceration in the United States has skyrocketed to unprecedented heights, both historically and in comparison to that of other developed nations. At far higher rates than the general population, those in or entering U.S. jails and prisons are prone to many health problems. This is a problem not just for them, but also for the communities from which they come and to which, in nearly all cases, they will return. Health and Incarceration is the summary of a workshop jointly sponsored by the National Academy of Sciences(NAS) Committee on Law and Justice and the Institute of Medicine(IOM) Board on Health and Select Populations in December 2012. Academics, practitioners, state officials, and nongovernmental organization representatives from the fields of healthcare, prisoner advocacy, and corrections reviewed what is known about these health issues and what appear to be the best opportunities to improve healthcare for those who are now or will be incarcerated. The workshop was designed as a roundtable with brief presentations from 16 experts and time for group discussion. Health and Incarceration reviews what is known about the health of incarcerated individuals, the healthcare they receive, and effects of incarceration on public health. This report identifies opportunities to improve healthcare for these populations and provides a platform for visions of how the world of incarceration health can be a better place.

handbook addresses the problems confronting criminal justice practitioners and their agencies due to the ever-increasing number of civil liability lawsuits. It introduces the reader to civil liability generally and the federal law specifically, while indicating the steps that can be taken to minimize the risk of litigation. Civil Liability in Criminal Justice is one of very few texts on the subject that combines applicable case law and related liability research, a valuable feature for current and future policy makers and managers. Ross also provides an overview of current case law in high-liability areas, enhancing student knowledge and practitioner job performance.

In the age of American mass incarceration, a complex legal regime governs prison conditions and presents a host of controversial questions at the intersection of constitutional liberty, statutory interpretation, administrative regulation, and public policy. This is a completely overhauled, re-titled, and much-expanded version of the leading casebook about incarceration. It addresses both pretrial and post-conviction incarceration, presenting Supreme Court and leading lower court case law, statutes, litigation materials, professional standards, academic commentary, and prisoner writing. Topics include conditions of confinement, civil liberties, particular prisoner populations and relevant legal issues (race and national origin discrimination, the particular issues/law governing treatment of incarcerated women, LGBTQ people, and people with disabilities). Litigated remedies (injunctive litigation, damages, the Prison Litigation Reform Act, and criminal prosecution of prison staff), are also covered in detail, as is non-litigation oversight. The casebook is supplemented by an open-access website that offers additional resources and sources for further reading.
