Artists are now using new, advanced technology to create works of art as well. Eric Standley, an artist based in Virginia, makes stained glass-like pieces using laser-cut papers. He stacks sheets of paper, often more than 100 of them, and uses lasers to cut intricate designs into them. #2 Sometimes, Tech is the Art. In other cases, the technology itself is part of the finished work of art.

Both art and technology define and continue to reshape the world we live in. Re-imagining what we know as real or as a solid ground pushes our opinions and understandings of nature to the limits. And with new inventions and experiments, both the mind and the body, the language, and the world itself seems to be making room for a different sphere and fresh rules.
