Scharmer – å bent sind, å bent hjerte, å ben vilje. Scharmers Teori U, 2008, handler om, at vi kan være forskellige steder i sindet, være opmærksomme på forskellige måder, og opnå forskellige erkendelser afhængigt af det, og den handler om, at hvis vi skal have adgang til vores dybeste og mest ægte kilde til viden og væren, så skal vi åbne sindet, hjertet og viljen.

business, and society and then extended the basic principles into a theory of learning and management, which he calls Theory U. The principles of Theory U are suggested to help political leaders, civil servants ...

Shows how leaders can access the deepest source of inspiration and vision • Includes dozens of tested exercises, practices, and real-world examples We live in a time of massive institutional failure, one that requires a new consciousness and a new collective leadership capacity. In this groundbreaking book, Otto Scharmer invites us to see the world in new ways and in so doing discover a revolutionary approach to leadership. What we pay attention to and how we pay attention is key to what we create. What prevents us from attending to situations more effectively is that we aren't fully aware of and in touch with the inner place from which attention and intention originate. This is what Scharmer calls our blind spot. By moving through Scharmer's U process, we consciously access the blind spot and learn to connect to our authentic Self—the deepest source of knowledge and inspiration—in the realm of “presencing,” a term coined by Scharmer that combines the concepts of presence and sensing. Based on ten years of research and action learning and interviews with over 150 practitioners and thought leaders, Theory U offers a rich diversity of compelling stories and examples and includes dozens of exercises and practices that allow leaders, and entire organizations, to shift awareness, connect with the best future possibility, and gain the ability to realize it.

"With the release of THEORY U almost ten years ago, Otto Scharmer set in motion a revolution in thought. Scharmer explained that what we pay attention to and how we pay attention is key to what we create. What prevents us from attending to

# Download Free Voc Vof Otto Scharmer

situations more effectively is that we aren't fully aware of and in touch with the inner place from which attention and intention originate. This is what Scharmer calls our blind spot. By moving through Scharmer's U process, we consciously access the blind spot and learn to connect to our authentic Self--the deepest source of knowledge and inspiration--in the realm of 'presencing, ' a term coined by Scharmer that combines the concepts of presence and sensing. Now, ten years later, Scharmer revisits the phenomenon THEORY U has become and updates and reports on the progress and evolution since initial release."--Provided by publisher.

Filosofische benadering van toekomstig leiderschap op maatschappelijk en bedrijfskundig gebied.

Creating a Better Future This book offers a concise, accessible guide to the key concepts and applications in Otto Scharmer's classic Theory U. Scharmer argues that our capacity to pay attention coshapes the world. What prevents us from attending to situations more effectively is that we aren't fully aware of that interior condition from which our attention and actions originate. Scharmer calls this lack of awareness our blind spot. He illuminates the blind spot in leadership today and offers hands-on methods to help change makers overcome it through the process, principles, and practices of Theory U. And he outlines a framework for updating the “ operating systems ” of our educational institutions, our economies, and our democracies. This book enables leaders and organizations in all industries and sectors to shift awareness, connect with the highest future possibilities, and strengthen the capacity to co-shape the future.

The author of Theory U shares a practical guide for leaders who want to forge a path to a better future for the world. We have entered an age of disruption. Financial collapse, climate change, resource depletion, and a growing gap between rich and poor are

# Download Free Voc Vof Otto Scharmer

but a few of the signs. In *Leading from the Emerging Future*, Otto Scharmer and Katrin Kaufer show us how to lead the shift out of an economy designed to collectively create results nobody wants. Meeting the challenges of this century requires updating our economic logic and operating system from an obsolete “ ego-system ” focused entirely on the well-being of oneself to an ecosystem awareness that emphasizes the well-being of the whole. Filled with real-world examples, this thought-provoking guide presents proven practices for building a new economy that is more resilient, intentional, inclusive, and aware.

**Our Time Is Now** We have entered an age of disruption. Financial collapse, climate change, resource depletion, and a growing gap between rich and poor are but a few of the signs. Otto Scharmer and Katrin Kaufer ask, why do we collectively create results nobody wants? Meeting the challenges of this century requires updating our economic logic and operating system from an obsolete “ ego-system ” focused entirely on the well-being of oneself to an ecosystem awareness that emphasizes the well-being of the whole. Filled with real-world examples, this thought-provoking guide presents proven practices for building a new economy that is more resilient, intentional, inclusive, and aware. “ A watershed! An inspiring, practical weaving of the inner and outer dimensions of the systemic changes so many around the world are now working toward. ”

—Peter Senge, Senior Lecturer, MIT Sloan School of Management; Founding Chair, Society for Organizational Learning; and author of *The Fifth Discipline* “ Scharmer and Kaufer have succeeded in writing the book that has the potential to transform civilization from one based on a rapacious, ego-driven economics to a viable, ecological, awareness-based model. This is a must-read for anyone who cares. It may well be the single most important book you ever read. ” —Arthur Zajonc, President, Mind

# Download Free Voc Vof Otto Scharmer

and Life Institute, and author of *Meditation as Contemplative Inquiry* “ Scharmer and Kaufer provide a creative and practical approach to shifting our economies. I see business as a movement, and this book shares that movement with the world, offering us inspiration to tap into the deeper levels of our humanity and urging us to transform the crises of our times. ” —Eileen Fisher, founder, Eileen Fisher, Inc. “ The shift to an eco-system economy is emerging everywhere around us. Otto ’ s and Katrin ’ s clarity in identifying that this shift requires change-makers to expand our thinking from the head to the heart has helped me to be more intentional in designing processes to awaken the hearts of entrepreneurs everywhere. This is a necessary condition for the emergence of the new economy. ” —Michelle Long, Executive Director, Business Alliance for Local Living Economies “ The purpose of business is to enhance the well-being of society. The 4.0 framework for transforming capitalism matters because it addresses a blind spot in our current discourse: how to create institutional innovations that could shift our economy from ego- to eco-system awareness at the scale of the whole. ” —Guilherme Peirã o Leal, founder and Cochairman, Natura Cosm é ticos

*Social Presencing Theater: The Art of Making a True Move* is a journey into the origins, principles, and practices of an innovative social art form co-created by Arawana Hayashi and colleagues at the Presencing Institute. This embodiment practice deepens reflection and supports individual, team, organizational, and social transformation. This highly accessible book offers an introduction to newcomers and provides a deeper understanding of the work for experienced practitioners who wish to create powerful spaces for heart-based learning and action. The book addresses the origins and underlying principles of Social Presencing Theater, while containing practice instructions and stories that highlight its uses in companies, schools, and social projects. *Social Presencing Theater* invites us to tap into our natural creativity and ability to fully embody the

# Download Free Voc Vof Otto Scharmer

"performance" of being human. Hayashi's intention with this work is to offer movement practices that support people in recognizing their own and others' embodied wisdom, compassion, and courage to act. In the face of today's enormous environmental, social, and spiritual challenges, we can become disconnected from the fundamental human goodness that lives in our presence. Social Presencing Theater invites us to make the true moves that are ours to make to create a society of brilliance, warmth, and strength.

**Creating a Better Future** This book offers a concise, accessible guide to the key concepts and applications in Otto Scharmer's classic Theory U. Scharmer argues that our capacity to pay attention coshapes the world. What prevents us from attending to situations more effectively is that we aren't fully aware of that interior condition from which our attention and actions originate. Scharmer calls this lack of awareness our blind spot. He illuminates the blind spot in leadership today and offers hands-on methods to help change makers overcome it through the process, principles, and practices of Theory U. And he outlines a framework for updating the “operating systems” of our educational institutions, our economies, and our democracies. This book enables leaders and organizations in all industries and sectors to shift awareness, connect with the highest future possibilities, and strengthen the capacity to co-shape the future.

This book constitutes the refereed post-conference proceedings of the First International Conference on Innovation and Interdisciplinary Solutions for Underserved Areas, InterSol 2017, and the 6th Collogue National sur la Recherche en Informatique et ses Applications (CNRIA), held in Dakar, Senegal, in April 2017. The 15 papers presented at InterSol were selected from 76 submissions and are grouped thematically in science, energy and environment, education, innovation, and healthcare. The proceedings also contain 13 papers from the co-located 6th CNRIA
